

## BEATEN ON CAUCUS

Hannites Failed to Get Together Last Night.

## ONLY A FEW PRESENT

MEETING WAS GIVEN UP IN DISGUST.

Deputy Mayor Eichnor and One or Two Others Sat for an Hour Looking at Each Other and Then Called the Proposed Session Off for the Present.

The attempt to hold another caucus of the Republican members of the city council last night failed, as A. F. Lawson put it, "it died a-borning." The reason assigned for the failure was that Councilmen Gemmell and Hewlett were out of town, but this excuse does not seem to account for the absence from the meeting of Beatty, Buckle, Cottrell, Whitmore and Thomas. The bald fact seems to remain that the fellows who would make a clean sweep in the city office are much farther from their goal than ever, with no prospect of success anywhere in sight. The independent members cannot be whipped into line, and each attempt at a meeting makes that fact all the more evident.

Those who met in the mayor's office last evening in the hope that a caucus would be held and that all the troubles that have come upon the party would be buried with a resolution that even a Democrat in the employ of the city would be made to walk the plank were Deputy Mayor Eichnor, F. C. Loofbourrow, A. F. Lawson, William P. Appleby and Councilmen Canning, Gemmell, Hewlett and Thomas. The five sat around looking at each other until 9 o'clock, not knowing what to do or how to do it. They would, no doubt, have been sitting there yet, had not Robertson arrived and announced that owing to the absence from town of Councilmen Hewlett and Gemmell, the caucus was declared off.

There was kicking over this announcement. Lawson wondered why they did not hold their caucuses on council nights before the members escaped, and Appleby delivered an eloquent discourse on his way up town on the spolia system and the absolute necessity of making a clean sweep of the offices.

As the little handful of pie hunters scattered to their homes from the steps of the joint building, not one of them expressed any hopes that their plans would ever pan out.

## COMMITTEES MEET.

Democrats Discuss Their Outing at Saltair.

There was a joint meeting of the executive committee of the Democratic state committee and of the executive committee of the Woman's Democratic club at the home of Mr. and Mrs. George H. Wood last evening, to make more definite arrangements for the coming Democratic day at Saltair. After a general discussion, a committee composed of George H. Wood, Mrs. J. M. Cohen and Mrs. H. J. Hayward was appointed to confer with Manager Miller of Saltair as to terms and date.

Another committee, composed of D. C. Dugbar, Judge E. A. Wilson and Senator Mattie Hughes-Cannon was appointed to arrange with the railroad throughout the state as to special rates for that day.

The subject of organizing women's Democratic clubs throughout the state was taken up and discussed at some length. As a result, Chairman J. H. Moyle of the state committee was empowered to appoint a number of women in each county to act as an auxiliary to the regular state committee.

In making these appointments, Mr. Moyle will advise with the members of his committee from the respective counties.

Another meeting similar to that of last evening will be held at Saltair, to enable the committees to report progress, and take the steps necessary to make Saltair day a great success.

## CACHE COUNTY'S CLAIMS.

Will Ask For Something in the State Convention.

(Special Correspondence.) Logan, April 18.—Cache county Democrats are determined to have a try at the governorship. The argument is made that in the Democratic party Cache stands second only to Salt Lake. The 890 majority King received here is no more than the normal Democratic strength, and next fall not less than 1,000 majority should be figured on for this county. In view of this, Cache will claim her share of the larger offices. Salt Lake already has the one senator, and it is conceded here, will get the other; has the congressmen and the member of the supreme court, hence some of the larger offices must go to the outside, and Cache, coming first on the list, will fight for the governorship. George W. Thatcher is, of course, the main man talked of, but he has not yet announced his candidacy nor made the slightest effort to obtain any support, even here at home. His friends may compel him, however. Anyway, Cache will be out for the governorship, and will be able to trot out a good man for the place.

## The New Hotel.

The praise and commendation of discriminating traveling men is always valuable and influential. It is this class always in the majority at Don Porter's new hotel, "The Kenyon," who do not qualify or abridge the pleasant or complimentary things they have to say of this particularly "nice" new hotel.

## Royal Bread.

Everybody eats it. Nothing beats it. Look for the label and ask your grocer for it every day.

## Handsome Tailor-made Gowns.

Ladies who wish the latest styles in tailor made gowns will find it to their advantage to call on our representative, room 47, "The Halls," corner State and Third South, who will show you a handsome line of samples for Spring and Summer wear, also silk linings, etc. Our gowns are made to order and guaranteed. ## HOME FROM A LONG RIP

S. H. FIELD BACK FROM VISIT TO CUBA.

Island is Immensely Rich in Mineral and Agricultural Resources—Death Rate Increasing.

S. H. Field, vice president of the Bank of Commerce, is just home from a months' tour through Mexico, Florida and Cuba. Naturally, he was most deeply interested in Cuba, and is very enthusiastic over the outlook for development and investment here. The climate is such that a great winter resort for northern people. This is especially true since scientific principles are being applied to the drainage and care of the cities.

In Matanzas, for instance, that is now in charge of Major Cartwright, formerly of Fort Douglas, the death rate has been decreased each succeeding month under the plan of development. The mortality of any city of 50,000 people in this country, Field says, is fabulously high. Mr. Field thinks Cuba will in time become a great winter resort for northern people. This is especially true since scientific principles are being applied to the drainage and care of the cities.

Florida is not so prosperous. In recent years there have been heavy frosts there in the winter, and this has had a disastrous effect upon the orange industry. In places he saw orange orchards being sold for less than the value of the trees. Mr. Field enjoyed his trip greatly, and returns feeling the benefit of his vacation.

## PERSONAL MENTION.

W. M. White, editor of the Beaver County Blade, returned home last night.

Mrs. Frank A. Lake returned from California yesterday and is at the Kenyon.

E. Davenport and John Pender were down from Ogden yesterday on private business.

Rev. Joel A. Smith goes to Logan today to lecture before the students of the Agricultural college on "The Chinaman and the West." He will undoubtedly be greeted by a large audience.

W. E. Ware returned from Laramie, Wyo., yesterday, where he had been for a day looking after some buildings that are soon to be built in Wyoming.

A. W. McCune and his son Vivian left last night for the value of the large and large candy plant which is being taken over. They will remain at the mine about a week.

## LOCAL BRIEFS.

**BANK CLEARINGS.**—The bank clearings yesterday were \$48,502.17, compared with \$27,874.30 for the corresponding day of last year.

## HERE FOR MARSHALL

Butte Policeman Comes For His Man.

## HELENA OFFICER COMES

AFTER LEWIS-WILSON-MITCHELL CROWD.

Chief Lavell of Butte Tells Something About the Record of Marshall Who is Known by the Montana Police as "American Blacky."—Sure Case Against Him.

Chief of Police Jack Lavell of Butte, and Sheriff Davidson of Helena, came in from the north last night, and upon their return they will have about as tough a lot of criminals in custody as ever graced a Utah prison. Chief Lavell is here to get Edgar Marshall alias Ed Allison, the fellow whom he hopes is the murderer of Mrs. Creech, while Sheriff Davidson will escort the far-famed Lewis-Wilson-Mitchell burglary syndicate back to Lewis and Clark county.

Speaking last evening of the man he is after, Chief Lavell, who is as general as he is handsome, said he was not dead sure that Marshall was the murderer. "But we firmly believe he is," said he. "The man's true name, if he is the murderer, is Richardson, known as 'Blacky,' who was shot yesterday in Deer Lodge jail, and he was done time in the Montana penitentiary. The morning after the Creech murder, he was arrested while burglarizing a house, but we had no idea then that he was the murderer. The man was 'soaked' a cup to Creech a couple of days before, and when searched he had a pocketful of cartridges. It occurred to us that these cartridges might be his, and we found that they did. It was a 32-calibre.

"In the meantime, we had a fellow by the name of Kingsley in jail, who had written a check for Mrs. Creech. When I went to him and asked if he would know the murderer, he told us both hands and pointed out 'Blacky,' who was shot yesterday in Deer Lodge jail, and he was done time in the Montana penitentiary. The morning after the Creech murder, he was arrested while burglarizing a house, but we had no idea then that he was the murderer. The man was 'soaked' a cup to Creech a couple of days before, and when searched he had a pocketful of cartridges. It occurred to us that these cartridges might be his, and we found that they did. It was a 32-calibre.

**Had Given Up Hope.**—"Then we scoured the country for him, and I had almost given up all hope of his recapture, when Chief Hillon's message and later the prisoner's photograph came. The picture was put among several others, all something alike, and it was picked out by the jailer, then by Kingsley, by the husband of the dead woman and by the bartender, who discovered the man in the act of robbing his till. That looks like pretty good evidence that this man is the one who broke jail, and if he is, he is the murderer."

Regarding the man arrested with Marshall ten days ago, the chief said that his picture was readily recognized as that of an old Montana crook by the men of the Montana penitentiary. He was arrested in Butte on Feb. 10 for going through a lodging house. There was a lack of evidence and he had to be turned up.

**Is Chum of "Blacky."**—McGrath is the known chum of "Blacky," who is another point in circumstantial showing. Deputy Sheriff Harries' evidence to be the man. The chief is undecided whether or not he will take McGrath, whose alias is Melville, back with him, or if he will keep here, he will get probably six months, while the Butte authorities may be able to make out a case of burglary against him.

The papers in the case will be signed by Governor Smith, and the chief expects to start back Saturday, along with Sheriff Davidson and his prisoners, who will be pardoned on that day by the state. The Lewis, of the burglar gang, has been before in the sheriff's toils, but not for burglary. He will go up this time sure, the officer says.

**TO TREE-PLANTERS.**—Nurserymen and Orchardists Warned Against Infected Trees. Numerous reports having come to the state board of horticulture of the finding of root gall or crown gall on fruit trees received from nurserymen, it is deemed advisable to caution all persons against planting any trees so infected. It is now settled that the crown gall is not a disease, but that infected trees are not only worthless in themselves, but are a menace to healthy trees in the same orchard or vicinity.

Any disease is used or distributed here by the appearance of knots or swellings on the main root of the tree near where smaller roots branch out. Sometimes the knots are quite small and are distributed over the entire root system. It is often contended that these swellings are the work of the aphids, but this would render the trees scarcely less objectionable. It is, therefore, advised that all nurserymen discard all trees showing any knots or swellings, and that persons receiving such trees at once destroy them, since such trees are sure to infect healthy trees, and that persons receiving such trees at once destroy them, since such trees are sure to infect healthy trees, and that persons receiving such trees at once destroy them, since such trees are sure to infect healthy trees.

**Lawyer Was Hot.**—There was a conflict for a few minutes yesterday between Sheriff Howells and Attorney J. M. Hamilton which threatened to result in a physical proceeding for a time, but which settled down when a better understanding was had. It grew out of the following:

On Sunday, Sheriff Howells received a telegram from Sheriff Stewart of Cripple Creek, Colo., advising him to be on the lookout for a Swede named Oscar Holm, wanted at that place for robbery. Deputy Dowse arrested the man on Monday, just as he was expressing his trunk to Cape Nome by the Wells-Fargo company. He had \$229 in cash in his pockets at the time of his arrest.

Yesterday Holm requested permission to consult with an attorney, and Hamilton called at the jail for that purpose. But when he arrived there he was informed by the sheriff that he could not see the prisoner until the arrival of the lawyer. Holm became wrathful and threatened habeas corpus proceedings, while the sheriff told him to go right ahead. Thus the matter stands.

Explaining his course last night, Sheriff Howells said that what he did was out of courtesy to a brother officer, and it is just what he would have expected and would have received from Sheriff Stewart, if the case had been reversed.

**To Connect Seattle and Tacoma.**—Seattle, Wash., April 18.—W. P. Trimble and Fred E. Sander of this city announce that they have secured the rights of way for a double track, standard gauge electric railway, connecting Seattle and Tacoma, and that they will commence construction as soon as the surveys, now under way, are completed. The line will be secured \$100,000 to pay for the line.
